

Bryce Larson

I am a graduate of the University of Washington, Seattle campus. I majored in History and Philosophy and minored in Experimental Physics, worked as a Research Assistant for the Department of Physics doing VR development for an undergraduate particle physics curriculum. After college I began working at Data Annotation as an Annotator training Large Language Models in STEM and Coding. Notable models I have helped train included Meta's Llama 2 and Anthropic's Claude.

EXPERIENCE

DataAnnotation, Freelance

January 2023 - Current

- Trained Large Language Models in a variety of subjects through Reinforcement Learning from Human Feedback (RLHF)
- Operated as a specialist in Coding and STEM subjects training the model to provide factually accurate and useful outputs given complex instructions
- Created custom datasets and prompts designed to stress the limits of LLM at the frontier of the field

University of Washington Department of Physics, Seattle— Research Assistant

July 2022 - June 2023

- Worked as part of a team developing a Physics curriculum utilizing Oculus VR headsets to simulate unique particle physics for students to learn principles of experimental physics. The curriculum has been in use at two colleges, the University of Washington and Washington State University
- Performed VR development using Unity and C# to develop a tool to change the electrical charge on a variety of simulated particles
- Worked in conjunction with a design team and a User Experience team to analyze the effectiveness of the program and curriculum
- Wrote documentation and technical writing for the codebase

Target, Seattle — Security Specialist

July 2022 - December 2022

- Worked in assets protections to ensure the safety of guests and Target merchandise
- Documented missing assets and created written reports on in-store incidents

SKILLS

Communication

Philosophy

Writing, Revision, and Editing

Clear and concise prose

Technical and Creative writing

AWARDS

Origins Project Scholarship -
Traveled to Bhutan with the
philosopher Peter Singer and
theoretical physicist Lawrence
Krauss

Kenneth Clatterbough
Philosophy Award

Dean's list

EDUCATION

University of Washington, Seattle — *Bachelor's degree*

September 2019 - June 2023

- Double Majored in History and Philosophy and Minored in Experimental Physics
- Won a three thousand dollar prize for an essay on the value of philosophy in the modern day
- Wrote over 30 essays and articles spanning a variety of topics
- Studied Abroad in Rome, Italy learning about Roman and Italian history and culture
- Volunteered with the Edmonds Food Bank

Mountlake Terrace High School — *High School AP Honors, and STEM Diploma*

September 2015 - June 2019

- Received a Computer Science, STEM Diploma taught by certified University of Washington professor
- Honors Society Distinction for academic excellence and volunteer work
- 3.91 GPA
- Participated in a FIRST Robotics team which placed in a global tournament
- Active member of the school's Arduino club for creating projects using microcontrollers
- Volunteered teaching High School students robotics
- Volunteered as a Counselor at the school's STEM Camp
- Worked in testing educational software for a programming team
